We desire to educate the unprivileged ones, then, that they may construct a portion of a sizable community, rather than these deprived ones establish a criminal mind to form society.

Our future mission is to convert this small setup into a proper hospital where specialist doctors, Laboratory, ECG, Ultrasound, X-ray, Operation theatre and other facilities will be available there. Al-Tahir Foundation's appeals to donors and philanthropist for support in this project because due to the insufficient medical facilities and lack of awareness, the death rate of the pregnant women and infant children is increasing. Referable to the deficiency of consciousness, people do not pay attention to their small diseases as a consequence they become the victim/target of serious diseases and die soon.
